

Book Project International 2017

étal - nature - territoire - garden - vegetal - nature - territoire - vegetal - nature - vegetal - natu

For Book Project International 2017 which will run in
october in Marseille/France, we would like to invite you to
create an original work on the theme of « Vegetal ».

Open Call

Book Project International 2017

Encounter of Creative Editions

October 5,6 and 7 - 2017
in the space of Galerie Anna Tschopp – Marseille/France

Book Project International is an international event organised by Atelier Vis-à-Vis since 1998 in Marseille. It is an encounter of Creative Editions where Atelier Vis-à-Vis gather publishers, artists, professionnels of edition, poets, performers, to question and to discover the creative edition and artist's book.

In 2016, the theme was "Artist Garden" and as a continuation in line with this theme we have chosen "vegetal" for 2017. We are now calling for artists from multidisciplinary approaches around this theme. Any approach is possible such as printmaking, drawing, painting, sculpture, artist's book, video, installation etc...

Artists can choose to present :

- a work which was inspired by artist's books from our collection.
(Participants can see artist's books at Atelier Vis-à-Vis à Marseille or on our website)
- an original work inspired by the theme "vegetal".

Works of selected artists will be exhibited during the Book Project International 2017.

The event will take place during 3 days with its program : exhibition of art works and artist's books, vidéo, performance and silkscreen workshop around an editorial project.

Artist's book is the center of the event. A selection of international artist's books which were inspired by vegetal will be exhibited.

See the last edition of Book Project International 2016 on our website of the event :
www.bookprojectinternational.com

We hope this project has aroused your curiosity and interest and hoping it will inspire your imagination and creative flare.
